Parking securely

Verhofsté
shaping open spaces

/ GENERAL

V-Park bicycle rack uses front fork support, which increases the stability of the bicycle and minimizes the risk of damage to the front wheel by tipping or pushing the bike over. Moreover, the bike is protected from paint damage by the additional protective sleeves. As a bonus, this simple and budget-friendly bike rack has an integrated anti-theft system. V-Park bicycle rack is available in single- and double-sided modules and in various centre-to-centre distances.

Advantages user

- Anti-theft protection (integrated front wheel locking point)
- Suitable for different tyre widths
- Suitable for wider tyres
- Additional stability thanks to front fork support
- Protection against paint damage thanks to protective sleeves
- Enlarged centre-to-centre distance of 500 mm for extra user comfort
- Protection against damage due to tipping or pushing over
- No wheel clamps

Advantages facility manager

- Budget-friendly
- Connectable modules
- Guaranteed corrosion resistant
- Reliable, durable and low-maintenance
- Extendable with anti-theft brackets or charging points (optional)
- Easy and quick to install
- Fast delivery
