/ Multipark

A multitasker in bicycle parking

Verhofsté
shaping open spaces

/ GENERAL

Multipark bicycle rack can be used for bicycles with all tyre widths. Electric bikes, racing bikes, city bikes, ... you name it! The innovative wheel holder makes it the ideal solution for locations with a diverse range of bicycles, such as urban and tourist areas. The multiple locking points make it the number-one in theft prevention. Multipark bicycle rack is available in different models and for placement on different surfaces.

Advantages user

- Maximum theft protection (locking options for front wheel, frame and rear wheel)
- Easy to use
- Suitable for all tyre widths
- Suitable for wide front forks
- Extra stability thanks to leaning facility and innovative wheel holder
- Protection against tipping or pushing over
- Easy circulation
- No wheel clamps

Advantages facility manager

- Reduction of careless parking as it is suitable for all tyre types
- Available in a wide range of models and for installation on various surfaces
- Guaranteed corrosion-resistant
- Reliable, durable and maintenance-free
- Vandalism-proof
- Ideal for placement in public areas
- Easy and quick to install
- Fast delivery
