

/ Forever 3 400

Extremely convenient, except for vandals

/ GENERAL

Forever 3 is a very robust bicycle rack. The front-wheel supports end in a U-profile which ensures safe and optimal storage of bicycles. The wheel is not clamped but rests, as it were, in the wheel support. In addition, the model is provided with attachment features. The sturdy material used for Forever 3 guarantees extra durability, which makes it very suitable for intensive use and makes it extremely vandal-resistant. Typical for the Forever 3 are the support legs and the possibility to mount signs on the bicycle stand. The legs ensure that the bicycle rack can be regulated according to the surface on which it is placed. The option to mount signs makes this bicycle stand the ideal solution for a garage or large bicycle shelter. The signs are used as a marker and ensure that cyclists can easily remember where their bicycle is parked. Forever 3 is available in single and double-sided version.
